

UV inkjet C³-systems printer for indoor and outdoor signs and displays

:Anapurna XL²

Quality printwork for indoor and outdoor signs & displays

:Anapurna XL² is a C³-Systems printer that offers graphic screenprinters, sign shops and photo labs vivid colours, very good image quality, smooth tints and images with no visible “noise”. It also delivers white colour on a wide assortment of flexible and rigid media.

:Anapurna XL² is designed for POP, displays, posters, banners, fleet displays, exhibition panels, stage graphics, construction announcements, ad panels and so much more. This uv-curable engine stands for quality printing on rigids as well as on roll media at widths of up to 250 cm (98 inch) and at speeds of up to 29 m²/h.

Robustness and outstanding image quality at a good cost of ownership makes this a top quality printer.

:Anapurna XL²
