

T660

Choose Best-in-Class UV Image Quality and Affordability

The affordable Rastek™ T660 from EFI™ offers a best-in-class UV flatbed printer for production and print environments looking to increase their customer satisfaction and profitability through quick service, high image quality and a smaller footprint.

The printer comes with several benefits:

- Generates photographic image quality to meet even the most demanding customers' expectations.
- Expands businesses' options and profits by offering four-colour plus optional white ink support for spot colour and under and over print.
- Comes with specialised vacuum table system that handles a wide range of rigid media quickly and easily.
- Produces exceptional image quality, saturated colours and smooth gradations with gray scale print heads that utilise eight size drops ranging from six Pico-liter drops for fine detail to 42 Pico-liter drops.

Ideal Applications:

- Package prototyping
- Short-run packaging
- Ad specialty items
- Membrane touch switch
- Display graphics
- Exhibition graphics
- Indoor and outdoor signage
- Posters
- Point-of-Purchase advertising

Optimised and tested on:

- Fome-Cor
- PVC
- Styrene
- Corrugated plastics
- Plywood
- MDO
- Paper
- Aluminum
- Aluminum plastic composite
- Cardboard
- Acrylic
- Glass

- All popular desktop files formats, including PostScript®3™, EPS, TIFF, PDF and RGB/CMYK.

Environmental Considerations

- Temperature: 18° C to 30° C.
- Humidity: 20% to 80% (non-condensing).
- Weight: 408.2 kg.
- Height: 129.34 cm.
- Width: 259.49 cm.
- Depth: 193.04 cm.
- Electrical: 200-240 VAC, Single Phase, 50/60 Hz., 30 Amps Maximum.

Fiery® XF

- Client/server architecture for decentralised remote operation.
- Unlimited clients for simultaneous set up of multiple jobs.
- Complete job management and set up for Macintosh® and PC.
- Modern, intuitive graphical user interface with one click access to all job settings.
- Advanced, easy-to-use wizard guided colour tools for consistent predictable high colour quality.

- Powerful production tools like nesting, step and repeat, scaling, cropping and tiling (flexible custom + automatic set up).
- Advanced ICC colour management for reliable colour quality output and proofing quality colour on production level printers.
- Strong colour recalibration, output quality and speed.
- Unlimited workflow and hot folder setup.
- File Output Module for output of colour managed files to extend your service portfolio.
- Scalable, versatile platform grows with your needs when your business grows.
- Central RIP server that drives Rastek™ wide-format printers, production printers, proofing printers and Fiery®-driven xerographic devices (option). Proof your print on another printer simulating your Rastek™ device and produce more sellable output on your Rastek solution.
- Multi-lingual user interface and manuals.
- Exclusive platform for further EFI software integration.

Inks

- Rastek™ inks are supplied in 500 ml bottles available in cyan, magenta, yellow, black and white.
